LLOQ = Lower Limit of Quantitation of analytical method, LOQ = Limit of Quantitation of analytical method; The reported result is based on a sample weight with the applicable moisture content for that sample; Unless otherwise stated all quality control samples performed within specifications established by the Laboratory. >MAX = Value is greater than the upper limit of quantitation (ULOQ). Only compounds above the LLOQ are displayed on this document. PASS indicates no compounds above the LLOQ were determined and is not a determination based on any regulatory limit.
